# COMPANY PROFILE

**Royal Touch** Paper Products Pty Ltd  
is an Australian based, privately owned manufacturer of  
innovative washroom solutions and accompanying products  
with over 25 years' expertise in the  
Australian Away-From-Home (AFH) sector.

Based out of Sydney with joint ventures placed strategically globally,  
**Royal Touch** takes the time to understand the challenges facing  
washrooms in any given sector and engineer products that cater  
to these specific requirements.

This foundation coupled with a stringent understanding  
of non-disclosure partnerships has allowed **Royal Touch** to grow rapidly  
as a successful boutique manufacturer for a range  
of private label companies.

As a partner to a host of private label companies,  
**Royal Touch** fully understands the importance and trust  
associated with working with another company's brand.

As such **Royal Touch** has a built-in machine contingency plan  
which guarantees consistency in product, performance  
and delivery on time and in full.

# ENVIRONMENTAL SUSTAINABILITY

At **Royal Touch**, we understand our responsibility as manufacturers to develop processes and practices with a focus on sustainability and minimizing our impact on the planet's limited natural resources. Essentially our environmental approach can be broken down into three key sections that takes us from the genesis of a product to the use of our product by the public.

- **Raw Material Certification**
- **Environmental Management System ISO 14001**
- **Innovative Hygiene Solutions**

## **Raw Material Certification:**

All our raw materials are purchased from certified sources and comply with all relevant regional, national and international laws and regulations for sustainable regenerative forestry, grown for purpose. As a manufacturer, we are able to manage the production process from beginning to end and verify that our raw material originates from forestry that focuses on the conservation of all native flora & fauna.

## **Environmental Management System - ISO14001:**

As a company, we are ISO14001 certified. This means that we have the policy, structure and tools in place to enable us to operate on a day-to-day basis as environmentally responsible as possible. This framework influences everything from ensuring the most energy efficient light bulbs are used in our warehouse, to offering our clients the option to return empty cartons to guarantee they are recycled.

## **Innovative Hygiene Solutions:**

By developing high performance products and accompanying them with innovative dispensing systems, we are able to greatly reduce waste to landfill thus creating a sustainable framework for the future:

## • **High Performance Products:**

As a company, we are uncompromising in the quality of our goods. This ensures that less paper is required to complete any given task, thus minimizing your ecological footprint.

## • **Innovative Dispensers:**

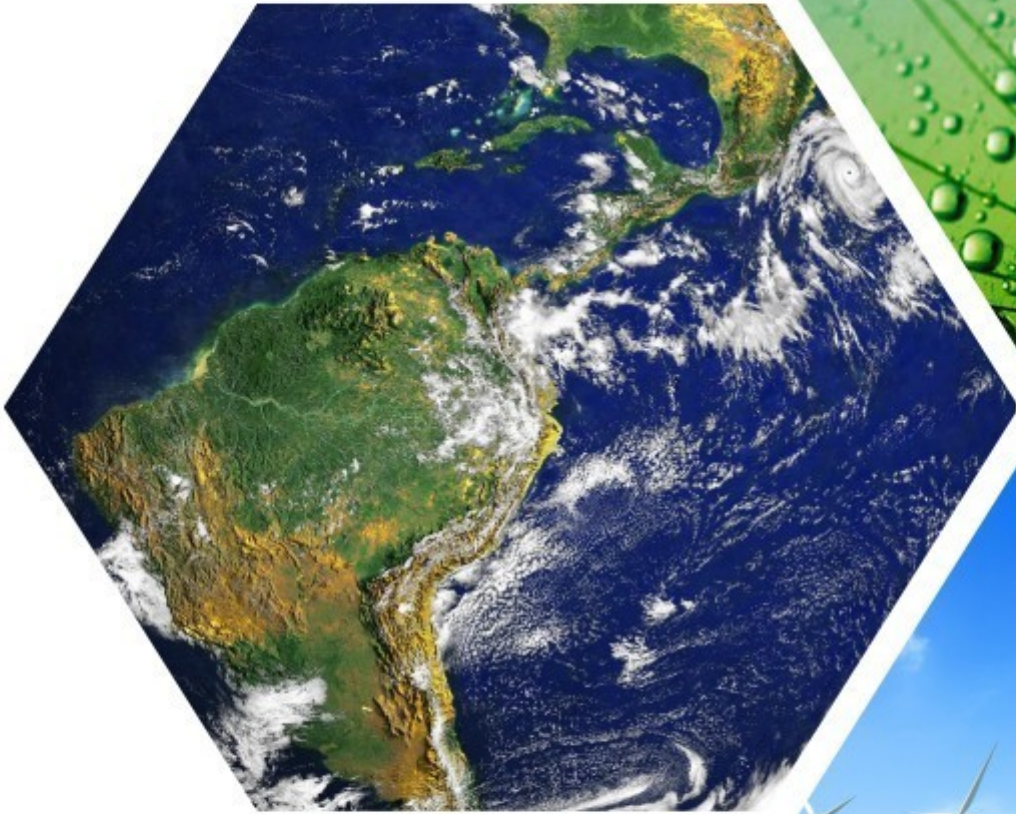

Every sheet or metre someone takes and doesn't fully use has an unnecessary impact on the environment. Our range of dispensers focus on managing consumption and minimizing overuse and allow us to eliminate unnecessary wastage by up to 45%.

When coupling high performance products with innovative dispensers you can rest assured that being environmentally conscious does not mean forfeiting quality and performance.

At **Royal Touch**, we aim to save the environment, without costing you capital.

# BIN LINERS

Royal Touch takes a holistic approach to supply.

As such we have partnered with a number of Australian owned manufactures to ensure our clients have access to a complete range of quality products at competitive prices.

If you are in need of a particular product, feel free to ask, and we will do our best to source it for you.
